

BEST AVAILABLE COPY
IN THE CLAIMS

Please amend the claims as follows:

1. (Currently Amended) A ~~device (1', 1'')~~ storage medium for storing and ~~reproducing~~ audio and/or video data, the ~~device~~ storage medium including a semiconductor memory ~~(3)~~ for storing the audio and/or video data in digital form, characterized in that ~~it~~ the storage medium includes a conversion unit ~~(4, 5)~~ which converts for converting the digital audio and/or video data into analog audio and/or video output signals suitable for reproduction by a reproducing apparatuses (6, 7), and in that the output lines of the ~~device~~ storage medium, on which the ~~useful~~ analog audio and/or video output signals are made available to the reproducing apparatus, are connected to the conversion unit, for making only the analog audio and/or video output signals externally available from the storage medium, while the audio and/or video data is not externally available in digital form.

2. (Currently Amended) A ~~device~~ The storage medium as claimed in claim 1, characterized in that the conversion unit includes a decoder ~~(4)~~ for decoding compressed and/or encoded data.

3. (Cancelled).

BEST AVAILABLE COPY

4. (Currently Amended) ~~A device~~The storage medium as claimed in claim 1, characterized in that ~~it is~~ the semiconductor memory and the conversion unit are integrated in a single microchip.
5. (Currently Amended) ~~A device~~The storage medium as claimed in claim 4, characterized in that ~~it~~ the storage medium takes the form of a chip card.
6. (Currently Amended) ~~A device~~The storage medium as claimed in claim 1, characterized in that the semiconductor memory ~~(3)~~ is a read-only memory.
7. (Currently Amended) ~~A device~~The storage medium as claimed in claim 1, characterized in that the conversion unit is configurable subject to authorization control and/or irreversibly.
